DETAILED ACTION

Election/Restrictions

1). The applicant's letter dated June 22 2004, amending claims 1, 10, and canceling claims 5, 14, 19, and 20 is acknowledged. In this instance the examiner is requiring an election between the following separate inventions.

2). Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, 6-9, drawn to an apparatus, classified in class 454, subclass 263.
- II. Claims 10-13, 15-18, drawn to a process, classified in class 42, subclass 98.

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the apparatus as claimed can be used to practice another and materially different process such as an air conditioning register with acoustic attenuation properties.

Art Unit: 3641

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3). Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Richardson whose telephone number is (703) 305 0764.
